For making tunnel straps

***Free from displaced patterns and twist  
Most suitable for making shoulder straps for  
swimsuits or decoration straps for blouses***

Equipped with a special binder for making tunnel (tube) straps to easily make shoulder straps for swimsuits, etc.

Pieces of knit fabrics, each shaped like tape set on the special binder, are sewn together. The pieces of cloth sewn together are automatically turned inside out and are pulled out looped. It allows spin tape or elastic to be sewn in to be able to produce many different tunnel (tube) straps.

For making  
tunnel straps

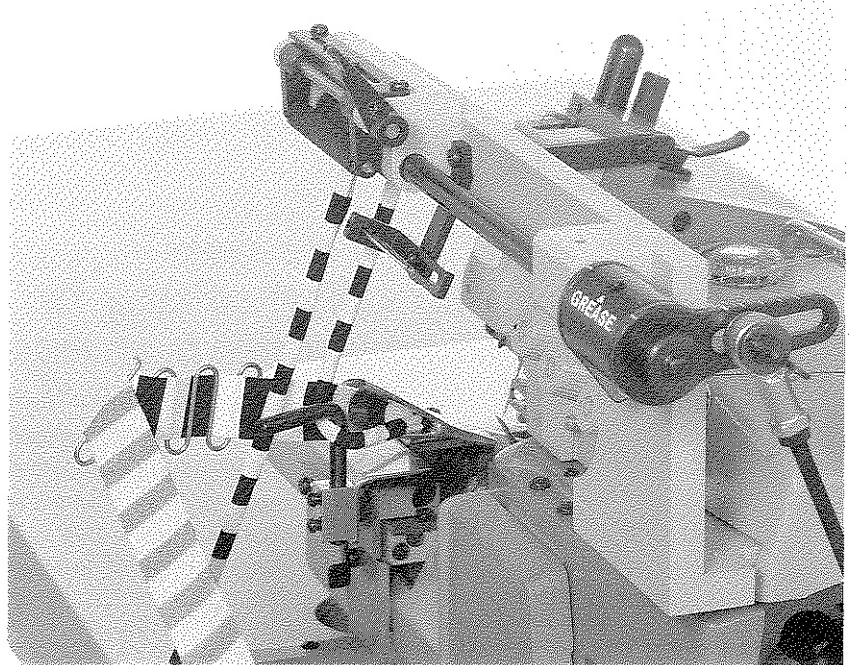

**PEGASUS®**

**NEW**

# L52-54x4/GFL/Y0023

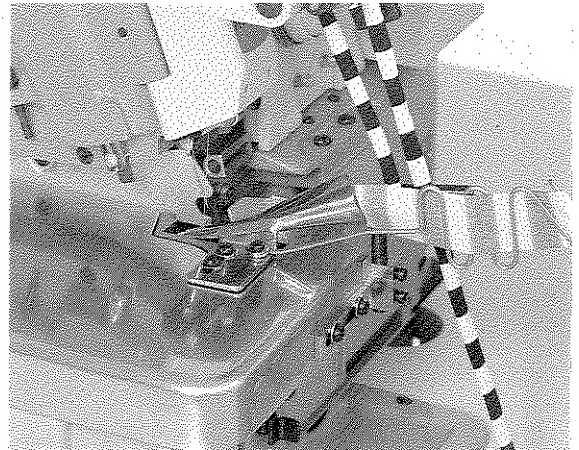

For making tunnel straps

- Accurate and smooth sewing free from twist and pattern displacement.
- To make tunnel (tube) straps, all you have to do is to set the tape on the binder and perform plain seaming.
- To adjust the stitch length, all you have to do is to adjust the feeding of the tape/elastic feeding device.
- Can work as an overedger if the gauge and a few parts are replaced.

## ■ Available binders

The standard binder is designed for tape of 24mm width (Loop diameter: approx. 6mm), but optional binders are available for the tape width range from 20mm to 42mm. [Please specify the tape width (mm) when ordering.]

## ■ Specifications

Number of needles: 1    Number of threads: 3    Seam width: 4mm    Max. speed: 4,000 s.p.m.  
GFL: Tape/Elastic Feeding Device
